

Pioneer and CAP Software Tip Their CAP to Optimized POS Solution

November 2016 – [Judaic Treasures](#), the gift shop in the prominent Jewish temple of Temple Emanu-El in Dallas, Texas, was looking for a POS solution to optimize their inventory control, sales reporting, and CRM functions. That way, they could serve their customers as efficiently as possible and continue to give back to the community since all of their sales proceeds go to fund charitable projects of the [Temple Emanu-El Sisterhood](#).

By working with [Pioneer Solution Inc.](#) and Texas-based POS software developer [CAP Software](#), they received the solution they were looking for.

Through the installation of CAP's most popular product, [SellWise Pro 9 POS](#) and [15" Pioneer S-Line](#) all-in-ones and accompanying components, Judaic Treasures experienced an increase in productivity. Both the software and hardware helped them speed up customer service, reduce inventory process time, and improve throughput in the store.

CAP Software enabled EMV for them, to help provide additional security and reduced chargeback risk. Their SellWise Pro 9 POS especially proved to be the perfect software program they were looking for due to features like its out-of-scope credit card integrations, enhanced reporting, and fast SQL database.

The S-Line, a compact all-in-one with an integrated EPSON thermal receipt printer, particularly helped with transaction speed and counter space due to its powerful processor and compact footprint. It also was the ideal hardware option for their retail software partner because of its patented tool-less slider design, which allows the printer to be [easily replaced](#) without affecting the entire system.

After a quick installation of less than a day, the systems integrated easily, were up and running, and went live the next day. Now Judaic Treasures can provide the best service possible to their customers.

About Pioneer Solution Inc.

[Pioneer Solution Inc.](#) designs and manufactures a complete line of industry specific all in one computers, touch screen monitors, kiosks, and tablets. Founded in 1994 and based in California, Pioneer Solution Inc. manufactures its solutions from start to finish in the USA which are deployed in Retail, Hospitality, Factory Automation, Gaming, and Healthcare environments.
