

Wall-Mounted Kiosks

Touchscreen Computers for Healthcare

Medical Grade Power

Beautifully designed anti-microbial touchscreen computers in various sizes for optimal viewing of your EHR.

Hardwired and positioned on the wall to provide the ultimate tool for tracking and documenting care services in the healthcare environment.

15" Standard Display

22" Widescreen Display

Predictable, Successful Outcomes

Medical Grade Built

Pioneer touchscreen computers provide many medical grade benefits including ruggedized housing with anti-microbial additive; resistive or capacitive touchscreen, optional privacy filter, hidden data ports and long product life-cycles.

Durable and efficient

These touchscreen computers offer exceptional durability. Scratch proof screens are also tested to withstand 30 million touches in the same spot. Perfect for documenting care services quickly and easily.

Compact Design and Widescreen

These sleek touchscreen computers are compact and can be mounted to walls with a flush mount. Power bricks can be hidden in pocket behind AIO to maintain a sleek, compact look.

Wall-Mount Power

Wall-mounted touchscreen computers are hardwired—ready when you need them. In the event of a power outage, the internal battery helps to keep the unit up and running till your power generator kicks in.
