

Mobile Charging Bay

For Touchscreen Computers

Putting the Power in your Hands!

Introducing the revolutionary RxChange™ Hot Swappable Battery System. When paired with CarisTouch mobile touchscreen computers and mobile cart healthcare providers achieve true 24/7 mobility and the power to operate fully at the point of care.

 **RxChange™**
Hot Swappable Battery System

24/7 Mobility with no cords!

Charge, Drop and Go - Easy as 1-2-3

The RxChange Hot Swappable Battery System (Mobile Charging Bay and Batteries) will sit at the Nurses Station and can charge up to 4 batteries at a time. Caregivers simply take a fully-charged battery, drop it into the back pocket of the touchscreen computer at the start of their shift, and go!

Mobility = Real-time and Accuracy

Mobile carts should not spend more time stationary than on the move. If this is the case in your environment, you are significantly reducing your ability to accurately capture care services and deliver medication at the point of care.

The Power is Yours

Don't let charging cords tie you up in effectively delivering care. If you're missing out on recording real-time information because your computing technology is plugged in and can't move... it's time to move to a true Mobile Solution... one with an 8 hour battery life.

RxChange Hot Swappable Battery System is specifically designed to be used with the following Pioneer Products:

Mobile Workstation: KC1-MCART-01

Mobile AIO Models: CT15M, CT18M, CT22M, CT24M

Hardware Specifications

Charging Bay

- State-of-the-Art Design
- Can charge up to 4 Batteries at once
- Security Lock
- Color: White
- Dimensions: 5.78" x 5.51" x 8.97"
- Weight: GW: 3.74lbs NW: 3.52lbs
- Mfr SKU: 4HW-CBA02 White

Batteries

- Medical Grade with silicone rubber
- Color: Gray with handle
- Cell: Lithium Ion
- Capacity: 13400mAh
- Input: 12.6V, 2.5A
- Output: 10.8 ~ 11.1V, 5A
- One (1) Year Limited Warranty
- Mfr SKU: 4HG-BAT03 Gray with handle

About Pioneer

Pioneer designs and manufactures a complete line of industry specific all in one computers, touch screen monitors, kiosks, and tablets. Founded in 1994 and based in California, Pioneer manufactures its solutions from start to finish in the USA which are deployed in Retail, Hospitality, Factory Automation, Gaming, and Healthcare environments. Pioneer has built an exceptional reputation with its customers and solution partners for superior flexibility and responsiveness to customer needs including short lead times, long product life cycles (minimum of 5 years), easy customization, and quick turnaround.
