

# RT10

The 10" Rugged Tablet is built to keep your business moving in even the most challenging environments. With a tough display and a responsive user experience, it performs reliably across industries like retail, healthcare, logistics, and manufacturing. Engineered to handle harsh conditions, it delivers consistent performance where it's needed most.

Assembled in California to meet your unique needs, it includes a one-year warranty and supports a wide range of accessories to help your team stay productive and prepared.
