

Slim Cart

The Slim Cart offers a streamlined, mobile workspace tailored for clinical use. Its height-adjustable design ensures comfort for any user, and it supports a wide selection of optional accessories to fit your workflow. Pair it with the CT18M or CT22M touchscreen mobile system to enable efficient, on-the-go documentation at the point of care.

Backed by a minimum one-year warranty, each cart and computer setup is made to order and shipped from our facility in California.
